

# BLUE PACIFIC COFFEE COMPANY

## A Taste of our Island Paradise

Blue Pacific Coffee continues proudly in the Tanna Coffee spirit of working hand-in-hand with our small-holder farmers by fully supporting the inclusive development of a genuinely sustainable, resilient and commercially viable South Pacific coffee industry.

The Company now sources a broad range of 100% pure Arabica Coffees, organically grown and hand-harvested by thousands of farming families on remote, volcanic tropical islands, so typical of the South Pacific, where unique climatic conditions prevail.

The wet-processing tradition of Tanna Coffee ensures that only the ripest coffee cherries are hand-picked at optimum sweetness, pulped, naturally fermented, washed and then sun-dried for a guaranteed premium quality and excellent taste characteristics.

Your purchase of this naturally grown, ethically sourced and sustainable coffee follows the on-going Tanna Coffee tradition of contributing to the overall socio-economic development and empowerment of village-based cottage industries. It will also provide increased livelihoods and improved living standards throughout many isolated South Pacific farming communities.
